

Smile of the Month

It is truly my honor to be able to create a beautiful smile for someone. To be able to give someone the confidence to smile and not be embarrassed or self-conscious makes everyday exciting for us.

Before

After

Pam **was** a victim of domestic violence. Now she is a survivor with a completely new outlook on life. She was referred to me through the American Academy of Cosmetic Dentistry national program "Give Back a Smile" (the first in Pittsburgh). To complete her treatment we used two bridges, five porcelain crowns, root canals, extractions, Zoom whitening and a no metal comfort partial to give her smile and life back.

A quote from Pam during her channel 11 news interview:

"For somebody to change my life and ask nothing in return except to smile, that's wonderful. That's the greatest gift I could ever get."
Pam
